(201) 444 5957 (Joe Diamond) or (201) 962-8702 (Nell Seymour)

## First Aid Kits

First aid kits hang on a wall  
in each of the kitchens

## Evacuation Routes

Exit signs mark your evacuation route. They are placed above doors that are either exterior exits or point the way to exterior exits. Once outside stay well clear of the building and out of the way of the fire department. Any RE children out of the room should immediately return to their class and follow their teacher's instructions.

In the event that you smell smoke, and only if an alarm has not sounded, quickly investigate its source and if circumstances warrant immediately call 911 and then activate one of the fire alarm pull boxes that are on the inside walls at all the building's exits.
